The Lower Bucks CSP Committee

Introduction

In the Fall of 2013, when the Lower Bucks Community Support Program (LB CSP) began meeting there were several regular attendees who were homeless. Because of their courage in speaking up to let the committee know what they were experiencing, other CSP members shared that they too had experienced homelessness in their past.

Over the course of the next 6 months, members continued to share various aspects of their experiences, educating the LB CSP committee on the many struggles homeless individuals face. As a result the committee worked on identifying ways they could make a difference on the issue of homelessness in our community.

In June 2014 Bucks County CSP held a county-wide Housing Forum. The goal was to gather information on what services and resources currently exist in our community for individuals with mental health issues who needed housing assistance/supports. After that we started development of this pamphlet—to bring together the resources that individuals who are homeless can use to survive while they are on the streets. Resources our homeless members told us are quite hidden and may take months or years to stumble upon.

We hope that this pamphlet will serve a vital role in connecting individuals with the resources that exist to assist with some of the struggles faced while homeless and the resources that can help build a better tomorrow.

Getting Started

Housing Link

The Housing Link is a system which provides a centralized intake (*single-point-of-entry*) and a coordinated assessment process (*including standardized eligibility, needs determination and referral*) for persons experiencing a housing/shelter crisis in Bucks County. The Housing Link Call Center is staffed Monday, Wednesday, Thursday and Friday from 8:30am – 7:30pm. Tuesday until 4:30pm. Voicemail is available 24/7 during non-business hours or if staff members are helping other callers. Messages are typically returned by the next business day.

Housing Link Number is: **1-800-810-4434**

What happens when I call the Housing Link?

Callers will be asked a brief series of screening questions that will take approximately 15 minutes to complete over the phone.

If screening questions indicate the caller is not qualified for assessment, other referrals and resources will be provided as appropriate.

For many individuals, the phone screening indicates that an in person, comprehensive assessment is necessary. These individuals will be called back by the assessment agency and an appointment is scheduled at the location convenient to them.

The comprehensive assessment appointment will last approximately 1 hour, and you will be asked to bring documentation to verify program eligibility.

This assessment helps determine the programs and most appropriate type of assistance for which you are eligible.

Types of assistance

- ◆ Temporary rental assistance to prevent eviction
- ◆ Utility, medication, food assistance in order to prevent non-payment of rent
- ◆ Transitional & supportive housing programs
- ◆ Homeless Shelter Placement

Many of the housing services in Bucks County can only be accessed by using this Housing Link number and going through the screening and assessment process. This eliminates an individual needing go through an application process for multiple agencies/programs by doing one comprehensive assessment that will determine which programs in the county you are eligible for.

Please Note: Clarity, Patience & Persistence are needed—

The Housing link averages over 400 calls per month. So it may take some time for calls to be returned. Please make sure you are very clear when you leave your name and phone number for a return call; in fact it is helpful if you repeat the number at least twice. Please make sure your phone's voicemail is set up, that there is room for messages and that you check your messages regularly. If you have not had a return call within 2 business days call back and leave your contact number and information again.

to other community based services as needed/ appropriate.

Initial phone call will include a screening to verify military service status and program eligibility. Eligible individuals will then go through an assessment process to determine housing needs after which referrals and placements will occur.
